

Soviets & Third World
77-1461

27 MAY 1977

MEMORANDUM FOR: Deputy Director for Intelligence
FROM: Director of Central Intelligence
SUBJECT: 25 May NID Cable

1. I noted with interest the article in the National Intelligence Daily Cable for 25 May on a fishing agreement between the Soviet Union and Guyana, and specifically that there are 38 such agreements with developing countries around the world.

2. I'd like to see an expanded paper on this and perhaps a chart that shows the 38 countries. I'm attempting to draw the conclusion that the Soviets are consistently using the establishment of fishing agreements with sound economic benefits for the developing country as a basis for gaining a foothold.
